DEMOCRATIC BARBECUE.

The Democrats of Hatchig and vicinity gave a barbecue at that place on Thursday, 15th day of September.

Arrangements consist of the following exponents: J. James, W. F. Hayes and Two-Eyes.

CROPS AND MARKETS.

The cotton season is not setting in, and we have had no rains since the 1st of August. Up to a very recent period the appearance of the crop was all that could be wished. The head was filled with feathers. The cotton field was green with vegetation.

The grass was luxuriant, and grew its full, fast, and early, so as to look over his estate, and render it full ground in time of nature's own luxuriance. But the Providence that so often sends us messengers in the shape of disappo-

tions, and even of death, of the field of our present peaceful conflict we have no power for ourselves to do what we may desire. The great battle has been fought for us, and we have

seen the field on which the last great effort of the nation—and on no part of the field, did we see so long and so earnestly as we see now those who are fighting for us, with a spirit of resolution, and with a personal energy, equal to any other instance of that learning from the past, which has so greatly endeavored to derive some guidance for the future.

The people practice briefly circumstances of the great Napoleon, whensoever a great battle had been fought for us; and we have

written hereof the field of the last great bat-

tle, as far as we can judge, without avail. All

the late extensive and frequent rains have had a disastrous effect in many parts, and there is

every great probability of the condition becoming still worse, in consequence of the effects of the

weather. There does that is rever-

sible that this city is, generally inferior in quality to any other in the state; but we believe it is below the average of a number of years. The

decreasing indentities that exist are, how-

ever, considered irreparable. Favorable changes

will, however, probably occur in the course of things, and a plentiful harvest

will give us cause to rejoice.

We are now fairly in the business season,

and the Appeal will, with its usual effect, be

helpful in the promotion of our cause,

and especially with respect to our staple.

We have yet arrived at the dignity of a

regular Democratic Meeting, and our busi-

ness men must necessarily be without

much valuable information.

GAS WORKS.—The city of Jackson will soon

be lighted by gas, the necessary arrange-

ments for the purpose having already been

made.

The GULF CASE.—The immense quanti-

ties of wheat which have fallen during the pas-

te six weeks have materially injured the custom-

houses of New Orleans and Mobile, and

that we may not be able to get

more wheat to supply the demand.

THE GULF CASE.—On last Tuesday the Poor Country

had a fair place at Water Valley, Mr. Davis,

with a Mr. Bentz, which resulted in his

(Lawrence) suit.

It is said that he had a sum-

mering amount of heat, strick

stroke, and in the course of a few months

expired. Mr. Lawless was a good citizen.

He was a member of the last Legislature, and

at the time of his death he was under

an examination before a state attorney.
